NOTICE TO COMPETITORS

Competitors, through submission of entry, acknowledge that they are knowledgeable of USDAA rules and regulations, as amended July 1, 2009, which are hereby incorporated by reference, including but not limited to the following rules and conditions for submission and acceptance of entry:

This test is open to all dogs at least eighteen months of age, including purebred and non-purebred, except bitches in season, dogs suffering from any deformity, injury, or illness that might affect the dog's physical or mental performance, or dogs exhibiting signs of aggression.

All dogs must be registered with USDAA in order to compete in USDAA sanctioned events. Registration may be made concurrently with entry to this show, a form for which is included in this agility test schedule. To obtain a registration number immediately and a height card prior to the show go online to www.usdaa.com, General Information, Dog Registration.

No leads, collars, food, toys or other aids or devices shall be permitted on the course at any time.

Safety shall always be of foremost consideration at all times. Handlers through entry at this event accept full responsibility for themselves and the actions of their dogs.

The Organizing Committee of an event may refuse the entry of any competitor or dog for just cause should the committee views that participation by competitor or dog would be prejudicial to the sport. However, any committee so doing must notify the competitor in writing (with a copy to the USDAA office) in anticipation of or upon receipt of entry. The notice must include the reason for refusing the entry and a brief explanation of the basis for their decision. The burden of responsibility for appropriateness of such action rests solely with the host group and its Organizing Committee.

Fault limits may be imposed in any class to which they apply at the discretion of the organizing committee and judge.

Competition is being held indoors, on a packed dirt surface. Bathrooms are inside. Crating area will be provided indoors. Crates may be left at the site on Friday and Saturday night, but all live animals must be removed from the premises. The site cannot be locked, so entrants are responsible for securing any valuables. Sirius Dog Agility will not be liable for any loss due to theft, natural disasters, vandalism and Acts of God.

Please observe any posted or verbal regulations regarding parking and set up. If you have questions, ask a Pensacola Agility League Agility representative.

Dogs must remain on leash at all times, except when competing in the ring. You must clean up after your dogs.

It is the responsibility of the competitor to have his/her dog ready to compete and at the ring entrance when the steward calls. Handlers and dogs should be familiar with USDAA® equipment. There will be no warm-up period before testing begins.

No entry fee will be refunded if the test cannot open or be completed by reason of riots, civil disturbances, fire, Act of God (including weather that the Organizing Committee in its sole determination shall deem unsafe), public emergency, act of a public enemy, strike or any other cause beyond the control of the organizers.

It is the entrant's responsibility to check for errors before submitting entry forms to this club. No entry will be refunded in the event of such errors or cancellation of entries after the published closing date.

Returned checks do not constitute a valid entry. There will be a \$25.00 service charge for returned checks. Payment of entry fees and service charges shall be made in cash or money order within 30 days of postmark of notice of returned check where notification is received after event date. Any fees not received within 30 days of notice will result in cancellation of event results for all classes for the registration number(s) of delinquent entry/entries. No reinstatement of results is possible, and all awards must be returned within 10 days of notification, or the dog's registration may be suspended pending restitution. Any unpaid fees or shortfalls must be paid prior to the start of the event or entry is canceled without recourse by owner/handler.

Amounts overpaid on entry fees of \$10.00 or less shall not be refunded.

All Competitors through entry at this event waive any and all rights relative to video broadcast of this event. Competitors shall have the right to videotape portions of this event for their personal use only. No portion of this event may be videotaped for commercial or other purposes. CLASS DESCRIPTIONS

Two certification programs will be offered at this event – Championship & Performance. Competitors may enter both Championship and Performance Program classes for which they are eligible; however, under NO circumstance may a dog be entered in the same Championship and Performance class at this agility test (i.e. standard at any level in both programs). Classes include standard agility, gamblers, jumpers, pairs relay and snooker agility as set forth in Chapters 3 – 7 of USDAA Rules and Regulations, each of which are conducted at three competitive levels.

Championship Program Classes

The Starters Standard classes shall be for dogs that have not earned the *Agility Dog*[®] title or a Starters Standard title. Starters Non-standard classes shall be for dogs that have not earned a title in the class being entered (Starters Gamblers, Starters Jumpers, Starters Relay-3 different partners required-or Starters Snooker) or a qualifying score in the equivalent non-standard class at the Advanced or Masters level. When offered separately as Starters and Novice classes, the Starters level classes are for dogs handled by a person who has not previously earned the *Agility Dog* title or a title in the Performance or Veterans Program with any dog. Three qualifying scores in the standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the *Agility Dog* title.

The Advanced Standard classes shall be for dogs that have earned the *Agility Dog*[®] title or a Starters Standard title. Advanced non-standard classes shall be for dogs that have earned the *Agility Dog*[®] title or that have earned a title in the equivalent non-standard class at the Starters level, but have not earned the equivalent Advanced non-standard title or a qualifying score in the equivalent non-standard class at the Masters level. Three qualifying scores in the standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the *Advanced Agility Dog* title.

The Masters Standard classes shall be for dogs that have earned the Advanced *Agility Dog*[®] title or the Advanced Standard title. Masters non-standard classes shall be for dogs that have earned the Advanced *Agility Dog*[®] title, the equivalent non-standard title at the Advanced level, or that had previously qualified for entry into the equivalent Masters non-standard class prior to January 1, 2004.

Performance Program Classes

Generally, Performance Level I, Level II and Level III are run on courses used for Starters, Advanced and Masters classes in the Championship Program, with the following exceptions: the A-frame is set at 5'6", jump heights are one height class lower as set forth in Notes to Competitors, no spread hurdles are utilized and time standards in the standard, jumpers classes are extended by 3 seconds beyond that utilized in the Championship Program and the pairs relay class is non-qualifying. Eligibility is determined as follows:

The Performance I Standard classes shall be for any dog that has not earned the Performance Dog ISM title, the Performance Standard I title, or a qualifying score in the Performance II or Performance III standard classes. Performance I non-standard classes shall be for any dog that has not earned a title in the class being entered (Performance I Gamblers, Performance I Jumpers, or Performance I Snooker) or a qualifying score in the equivalent non-standard class at the Performance II or Performance III level. Three qualifying scores in the standard class from two different judges along with one qualifying score in each of the non-standard classes is required to earn the Performance Dog ISM title.

The Performance II Standard classes shall be for any dog that has earned the Performance Dog ISM title, the Performance Standard I title, the *Agility Dog*[®] title or the Veteran *Agility Dog*SM title, but has not earned the Performance Dog IISM title or Performance Standard II title, or a qualifying score in the Performance III standard class. Performance II non-standard classes shall be for dogs having earned the Performance Dog ISM title, the *Agility Dog*[®] title or a title in the equivalent Starters or Performance I non-standard class, but not having earned a title in the equivalent non-standard Performance II class or a qualifying score in the equivalent non-standard Performance III class. Three qualifying scores in the standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the Performance Dog IISM title.

The Performance III Standard classes shall be for any dog that has earned the Performance Dog IISM title, the Performance Standard II title, the Advanced *Agility Dog*SM title, or the Veteran Advanced *Agility Dog*SM title. Performance III non-standard classes shall be for dogs having earned the Performance Dog IISM title, the Advanced *Agility Dog*[®] title, the equivalent non-standard title at the Advanced or Performance II level, or that had previously qualified for entry into the equivalent Performance non-standard class prior to January 1, 2004.

NON-STANDARD (Games) AGILITY CLASSES

These classes will be scored pursuant to Chapters 6 & 7 of the USDAA® Rules and Regulations.

Gamblers Classes consist of a course with no pre-determined route and each obstacle is assigned a point value. In the 'opening' period the handler seeks to accumulate points by performing the obstacles of his/her choice in the time allotted. At the conclusion of the 'opening' the handler attempts the "gamble", a sequence designated by the judge to be handled from a distance, for additional points.

Snooker Classes consist of an 'opening' sequence of point collection similar to the Gamblers class, followed by a closing sequence of a set pattern. It roughly parallels the billiards game of 'Snooker', requiring the dog to successfully complete a 'red' jump prior to attempting an obstacle designated as any other color.

Jumpers Classes demonstrate a dog's natural jumping ability and fluid working habits, consist of a course of jumps and may include a tire and tunnels.

Pairs Relay Classes consist of a standard course with one dog and handler doing a portion of the course, followed by a baton exchange to a second handler and dog who do the second portion of the course. This nonstandard class is scored pursuant to Chapters 6 & 7 of the USDAA Rules and Regulations. Dogs must be entered in the same level and height division; mini (Ch 12/16, Perf 8/12) or open (Ch 22/26, Perf 16/22). Effective 1/1/09 pairs relay is required for all levels in Performance. In the event only one dog is entered in a program/level, un-entered dogs or dogs from other programs/level may NOT be recruited to form a qualifying pair.

2010 Grand Prix of Dog Agility® World Championships & Performance Grand PrixSM - Local Qualifiers

These tournaments are open to all competitors regardless of titles earned or skill level. Both are a single-round tournament featuring the sport in its basic form. The course includes obstacles as set forth in Chapter 3 of USDAA Rules and Regulations for standard agility, except that no table obstacle shall be used. Standard scoring shall be applied.

Competitors must have a ZERO fault round to earn a qualifying score for which qualifying ribbons are presented. One qualifying score is required for entry in Round 1 of a Regional Championships. Additionally, the first place competitor in each height class who has earned a qualifying score shall be eligible to enter the final round of a Type 1 Regional Championship without regard to their score in the first round. Such eligibility shall be documented through a “bye” voucher. A competitor may earn more than one voucher, and the voucher is non-transferable, can be used only once and must be submitted with the competitor’s entry form for a Type 1 Regional Championship. See complete rules and regulations for Regional Championships, which are hereby incorporated by reference.

SPECIAL NOTES: When a local qualifier is held in conjunction with an agility test where all levels of titling are NOT being offered, ‘bye’ vouchers will not be awarded. (e.g. Starters/Advanced only, Advanced/Masters only, Masters only – **Tournament Only shows do not fall into this category**) Competitors with a qualifying score placing first in a jump height shall be named Regional Champion and earn a bye into the World Championship semifinals. Additionally, competitors in Round 2 at a Regional with a qualifying score in the top 50% in each height class shall earn a bye into the semifinals at the Cynosport® World Games. If at a regional championship a bye is earned by a competitor/dog team who has already earned a bye in that jump height, the bye is forfeited.

The rules may be found on the USDAA web site—General Information—Forms and Documents Library, or may be requested in writing by US mail from the USDAA office. A competitor must have two qualifications from local qualifiers, one of which may be from the first round of a Regional Championship, in order to qualify for entry to the world championship quarterfinals; however, where a competitor may choose to compete in both Grand Prix and Performance Grand Prix qualifiers during the current tournament season, the competitor is only eligible to compete in the championships of the tournament in which they have earned the most qualifications. Further, 2010 tournament rules stipulate that a competitor must compete all in Championship or all in Performance tournaments at Regional and National/World Championship events.
