CHECK-IN AND MEASURING

You may attached a copy of your yellow, permanent height card to your entry to expedite check in. All competitors must check in their first day of competition. All dogs must be measured prior to being checked in unless they jump 26" (22" in Perf), a copy of the permanent card was submitted with entry or the handler presents the permanent card, a temporary card with 3 measurements awaiting a CMJ, a check-in letter issued by USDAA / print out of dog info page from subscriber account indicating the dog is permanently carded.

Dogs that measure up will be moved first in the new jump height. If a dog is unprepared to jump the higher height, it may run For Exhibition Only but no awards or qualifying scores may be earned and no change in programs is permitted. The handler of a dog entered in Team/PVP that measures up must notify the secretary at check-in. If the change in jump height affects the team, the secretary shall make every effort to form complete teams from the dogs available. The dog measured up must jump at the higher height in order for the team/pair to earn a qualifying score. If the dog runs FEO at the lower height, the team/pair may not qualify, but the partners may earn placements, top ten points and Lifetime Achievement Qs in the individual classes. **Please DO NOT mail actual cards or copies of the blue cards.** Check-in and measuring are scheduled all days between 7:00-7:45 am. Check your confirmation letter to confirm these times.

It has been very difficult to get hotels and motels in the area to accept dogs due to problems these facilities have had in the past with people not taking care of dogs in rooms, not cleaning up after dogs, dogs allowed to bark unattended in rooms and damaging property.

Please respect other people's property and clean-up after your dogs and don't leave them unattended in the hotel rooms. We want to be able to use these services again in the future. We have asked the management of these facilities to contact us and report any problems with guests and their dogs. If problems are reported offenders may be excused from the trial without refund and may have entries rejected for future trials.

NON-STANDARD CLASS DESCRIPTIONS These nonstandard classes are scored pursuant to the provisions of Chapters 6 & 7 of USDAA Rules and Regulations

Gamblers class: The competition consists of a course with no pre-determined route and each obstacle is assigned a point value. In the 'opening' period the handler seeks to accumulate points by performing the obstacles of his/her choice in the time allotted. At the conclusion of the 'opening' the handler attempts the 'gamble', a sequence designated by the judge to be handled from a distance, for additional points.

Jumpers class: consists of a course of jumps and may include a tire and tunnels.

Snooker class: has an 'opening' sequence of point collection similar to the Gamblers class followed by a closing sequence of a set pattern. Roughly parallels the billiards game of 'Snooker', requiring the dog to successfully complete a 'red' jump prior to attempting an obstacle designated as any other color.

Pairs Relay: consists of a standard course with one dog and handler doing a portion of the course, followed by a baton exchange to a second handler and dog who do the second portion of the course. Partners must be in the same level and height division - min (Ch 12/16, Perf 8/12) or open (Ch 22/26, Perf 16/22). If only one dog is entered in a program/level, un-entered dogs or dogs from another program/level may NOT be recruited to form a qualifying pair.
