NOTICE TO COMPETITORS

Competitors, through submission of entry, acknowledge that they are knowledgeable of USDAA Rules and Regulations, as amended July 1, 2009, including but not limited to the following rules regarding entry. USDAA's official Rules and Regulations are hereby incorporated by reference, an electronic version of which may be accessed online at www.usdaa.com, Rules & Regulations.

- This test is open to all dogs being at least 18 months of age, including purebred and non-purebred, except bitches in season, dogs suffering from any deformity, injury or illness that may affect the dog's ability to perform safely, or dogs exhibiting signs of aggression.
- All dogs must be registered with USDAA in order to compete in USDAA sanctioned events. To obtain a registration number immediately and a height card prior to the show, go online to www.usdaa.com, General Information, Dog Registration. Registration may be made concurrently with entry to this show, a form for which is included in this Agility Test Schedule. Additionally, all junior handlers must be separately registered in order to compete in the Junior Handler Program classes. Registration number has a "J" prefix.
- Order of classes as listed on the cover of this Agility Test Schedule is not necessarily the running order. The tentative running order as listed in this Schedule may be changed.
- No leads, collars, food, toys or other aids or devices shall be permitted on the course except as provided for in the USDAA Rules and Regulations for the Junior Handler Program. No training, pinch or shock collars will be permitted on or around the course at any time.
- Safety shall be of foremost consideration at all times. Handlers, through entry at this event, accept full responsibility for themselves, their guests and the actions of their dogs.
- The Organizing Committee of an event may refuse the entry of any competitor or dog for just cause should the committee view that participation by competitor would be prejudicial to the sport. However, any committee so doing must notify the competitor in writing (with a copy to the USDAA office) in anticipation of or upon receipt of entry. The notice must include the reason for refusing entry and a brief explanation of the basis for the committee's decision. The burden of responsibility for appropriateness of such action rests solely with the host group and its Organizing Committee.
- No entries shall be accepted, changed, or altered after the closing date of Friday, July 23rd, except as outlined under ENTRIES and CLOSING DATES.
- There shall be no refunds in the event a dog and/or handler are dismissed from competition, regardless of the reason.
- 100% of entry fees will be refunded if requested before or on the closing date of Friday, July 23rd. Refunds for withdrawals requested after the closing date but before the first competition date listed in this Schedule will be made only for injured or ill handlers or injured, ill or in-season dogs. Owner/handler will receive a refund less a \$20 per dog handling fee. Verification from a doctor or vet may be requested.
- There shall be no refunds for withdrawals requested on or after the first competition date listed in this Schedule, regardless of the reason.
- **Checks will be held until the closing date of Friday, July 23rd.** Returned checks do not constitute a valid entry. There will be a \$20 service charge for returned checks. Any unpaid fees or shortfalls and the service charge must be paid prior to the start of the event or entry is canceled without recourse by owner/handler. Where notification is received after event date, payment of entry fees and service charges shall be made in cash or money order within 30 days of postmark notice of returned check. Any fees not received within 30 days of notice result in cancellation of event results for all classes for the registration number(s) of delinquent entry/entries. No reinstatement of results is possible, and all awards must be returned within 10 days of notification, or the dog's registration may be suspended pending restitution.
- Dogs must remain on leash at all times, except when competing in the ring or in the warm-up jump area.
- No dogs may be left unattended except when properly kenneled in designated kennel areas. Day kenneling only is permitted, unless otherwise posted at the show site. USDAA and Willamette Agility Group cannot and do not assume any liability for loss of any items left unattended.
- No entry fees will be refunded if the Test cannot open or be completed by reason of riots, civil disturbances, fire, Act of God, public emergency, act of a public enemy, strike or any other cause beyond the control of the organizers.
- Agility obstacles shall meet the requirements of USDAA Rules and Regulations.
- Dogs must be exercised only in designated areas. Please pick up after your dog.
- **Fault limits may be applied in all classes for which faults are assessed. Limits shall be announced during the judges' briefings.**
- Mismatched or incomplete Pairs shall be accepted as draw entries only.
- There will be no equipment familiarization at this event.
- **There shall be no smoking in the boundary of the show site, which shall include all buildings and entries to all buildings.**
- All competitors, through entry at this event, waive any and all rights relative to video broadcast of this event. Competitors shall have the right to videotape portions of this event for their personal use only. No portion of this event may be videotaped for commercial or other purposes. All video, broadcast and telecast rights for this event are the exclusive property of United States Dog Agility Association, Inc.
- Portions of this event may be taped for television. Through entry at this event, ALL COMPETITORS and HANDLERS HEREBY GRANT to USDAA and its representatives, agents, and assigns, all rights and permission to use or appropriate his/her and their dog's name, biography, likeness, photograph, voice, performing persona, or other indicia of identity for broadcast, telecast, cablecast, transmission or distribution in any format or media now known or hereafter to become known. All competitors and handlers hereby release USDAA and its representatives, agents, and assigns from any claim or cause of action for invasion of the rights of privacy, right of publicity, right of personality, or any similar right.

USDAA AGILITY TITLING PROGRAM

Two certification programs will be offered at this event: Championship and Performance. Competitors may enter both Championship and Performance Program classes for which they are eligible; however, under NO circumstance may a dog be entered in the same Championship and Performance class at this agility test (i.e. Standard at any level in both programs). Classes include Standard agility, Gamblers, Jumpers, Pairs Relay and Snooker agility as set forth in Chapters 3-7 of USDAA Rules and Regulations, each of which are conducted at three competitive levels.

CHAMPIONSHIP AGILITY PROGRAM

The Starters Standard classes shall be for dogs that have not earned the *Agility Dog*[®] title or a Starters Standard title. Starters non-standard classes shall be for dogs that have not earned a title in the class being entered (Starters Gamblers, Starters Jumpers, Starters Relay-3 different partners required-or Starters Snooker) or a qualifying score in the equivalent non-standard class at the Advanced or Masters level. Three qualifying scores in the Standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the *Agility Dog* title.

The Advanced Standard classes shall be for dogs that have earned the *Agility Dog*[®] title or a Starters Standard title. Advanced non-standard classes shall be for dogs that have earned the *Agility Dog*[®] title or that have earned a title in the equivalent non-standard class at the Starters level, but have not earned the equivalent Advanced non-standard title or a qualifying score in the equivalent non-standard class at the Masters level. Three qualifying scores in the Standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the *Advanced Agility Dog* title.

The Masters Standard classes shall be for dogs that have earned the Advanced *Agility Dog*[®] title or the Advanced Standard title. Masters non-standard classes shall be for dogs that have earned the Advanced *Agility Dog*[®] title, the equivalent non-standard title at the Advanced level, or that had previously qualified for entry into the equivalent Masters non-standard class prior to January 1, 2004.

PERFORMANCE AGILITY PROGRAM

Generally, Performance Level I, Level II and Level III are run on courses used for Starters, Advanced and Masters classes in the Championship Program, with the following exceptions: the A-frame is set at 5'6", jump heights are one height class lower as set forth in Notes to Competitors, no spread hurdles are utilized, and time standards in the Standard and Jumpers classes are extended by 3 seconds beyond that utilized in the Championship Program. Eligibility is determined as follows:

The Performance I Standard classes shall be for any dog that has not earned the Performance Dog ISM title, the Performance Standard I title, or a qualifying score in the Performance II or Performance III Standard classes. Performance I non-standard classes shall be for any dog that has not earned a title in the class being entered (Performance I Gamblers, Performance I Jumpers, or Performance I Snooker) or a qualifying score in the equivalent non-standard class at the Performance II or Performance III level. Three qualifying scores in the Standard class from two different judges along with one qualifying score in each of the non-standard classes is required to earn the Performance Dog ISM title.

The Performance II Standard classes shall be for any dog that has earned the Performance Dog ISM title, the Performance Standard I title, the *Agility Dog*[®] title or the Veteran *Agility Dog*SM title, but has not earned the Performance Dog IISM title or Performance Standard II title, or a qualifying score in the Performance III standard class. Performance II non-standard classes shall be for dogs having earned the Performance Dog ISM title, the *Agility Dog*[®] title or a title in the equivalent Starters or Performance I non-standard class, but not having earned a title in the equivalent non-standard Performance II class or a qualifying score in the equivalent non-standard Performance III class. Three qualifying scores in the Standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the Performance Dog IISM title.

The Performance III Standard classes shall be for any dog that has earned the Performance Dog IISM title, the Performance Standard II title, the Advanced *Agility Dog*SM title, or the Veteran Advanced *Agility Dog*SM title. Performance III non-standard classes shall be for dogs having earned the Performance Dog IISM title, the Advanced *Agility Dog*[®] title, the equivalent non-standard title at the Advanced or Performance II level, or that had previously qualified for entry into the equivalent Performance non-standard class prior to January 1, 2004.

CLASS DESCRIPTIONS

Competitors may enter both Championship and Performance programs at this event. A dog may be entered in any program for which it is eligible and may enter a Championship program class and Performance program class at the same level (e.g. Masters Gamblers and PIII Standard); however a dog may not be entered in the same or similar CLASS in both Championship and Performance (e.g. Masters Gamblers and PII or PIII Gamblers). In each of the following descriptions, it can be assumed that the Performance Program parallels the Championship program unless otherwise noted.

- Standard Agility: A standard agility course consists of a numbered sequence of obstacles. It demonstrates a dog/handler team's speed, accuracy, and teamwork. All non-standard classes are scored pursuant to the provisions of Chapters 3-5 of USDAA Rules and Regulations.

Non-standard Class Descriptions - These non-standard classes are scored pursuant to the provisions of Chapters 6 & 7 of USDAA Rules and Regulations.

- Gamblers Class: consists of a course with no pre-determined route and each obstacle is assigned a point value. In the 'opening' period the handler seeks to accumulate points by performing the obstacles of his / her choice in the time allotted. At the conclusion of the 'opening' the handler attempts the 'gamble', as a sequence designated by the judge to be handled from a distance, for additional points.

- Jumpers Class: consists of a course of jumps and may include a tire and tunnels.

- Snooker Class: has an 'opening' sequence of point collection similar to the Gamblers followed by a closing sequence of a set pattern. Roughly parallels the billiards game of 'Snooker', requiring the dog to successfully complete a 'red' jump prior to attempting an obstacle designated as any other color.

- Pairs Relay: consists of a standard course with one dog and handler running a portion of the course, followed by a baton exchange to a second handler and dog who run the second portion of the course. Partners must be from the same level and height division, mini (Ch 12/16", Perf 8/12") or open (Ch 22/26", Perf 16/22"). In the event only one dog is entered in a program/level, un-entered dogs or dogs from another program/level may NOT be recruited to form a qualifying pair. Relay is required at all levels for Performance.

JUNIOR HANDLER TITLING PROGRAM – Use separate entry form!

The Junior Handler Program is for children 18 years of age and younger. Four progressive levels of competition are offered. Each Junior Handler must separately register with their dog (see registration form) to be eligible for entry in the following classes. A dog may not compete with two different handlers in the same class level on the same day. Since the 2 runs per class per level are being offered on the same day, back to back, there will be no move-ups allowed as per USDAA® rules. Jump heights are the same as for the Performance Program: 8", 12", 16", 22". As described in Section 8.2 of the current USDAA rule book, classes offered are:

- **Beginners Agility Class:** The JH - Beginners AgilitySM certificate requires completion of one round of competition with no penalties. Entrants must complete an eight to ten question examination, and items missed on the exam must be reviewed prior to or during the judge's briefing. Completion of the course within the designated time without fault shall result in the award of USDAA's JH - Beginners Agility certificate of accomplishment. The obstacle course shall be comprised of ten (10) obstacles set in a simple horse shoe or simple "M" design, including an A-Frame (apex at 4'6"), Table at 12" for all dogs (to be performed in the down position for five cumulative seconds), Pipe Tunnel, Collapsed Tunnel and Six Hurdles (wings, if any, should be no more than 18" in width). The standard course time shall be 60 seconds. Dogs may compete on leash using a buckle collar. Election to do so must be designated on the entry form.
- **Elementary Agility Class:** The JH - Elementary AgilitySM certificate requires completion of two rounds of competition with no penalties. Successful completion of the two rounds will earn the JR - Elementary Agility certificate of accomplishment. The obstacle course shall be comprised of ten obstacles set in a simple horseshoe or simple "M" design. The same agility obstacles and related modifications shall be used as in the Beginners class, except that the A-frame shall measure 5'0" at the apex. The standard course time shall be the same as in the Beginners class, set at 60 seconds. Dogs may wear a buckle collar, but must compete off leash.
- **Intermediate Agility Class:** The JH - Elementary AgilitySM class requires three rounds of competition with no penalties. Dogs completing three clear rounds in this class shall be awarded the JH - Intermediate Agility certificate of accomplishment. The courses shall be of simple design, being slightly more challenging than a figure of "8", and shall include twelve (12) to fourteen (14) obstacles, including an A-Frame (apex at 5'6"), Dog Walk (elevation at no more than 3'0" and planks of no less than 7'0" in length), Pipe Tunnel, Collapsed Tunnel, Short set of weave poles (five or six), Table at 12" for dogs jumping in the lower two height classes and at 16" for dogs jumping in the two higher jump height classes (to be performed in the down position for five consecutive seconds), Long Jump, Tire Jump and four to six hurdles. The standard course time shall be 75 seconds. Dogs must compete off leash without a collar.
- **Senior Agility Class:** The JH - Senior AgilitySM class requires three rounds of competition with no penalties. Dogs completing three rounds without fault in this class level shall be awarded the JH - Senior Agility certificate of accomplishment. The courses shall be of simple design, being slightly more challenging than a figure of "8", and shall include thirteen (13) to fifteen (15) obstacles, including the same obstacles as in the JH - Intermediate class with the following modifications: A-frame apex at approximately 5'10" (5'6" for the 8" and 12" height classes) and the addition of a see-saw. The standard course time shall be computed at the rate of two yards per second not to exceed 75 seconds. Dogs must compete off lease without a collar.

CHAMPIONSHIP and PERFORMANCE JUMP HEIGHTS

Following are the jump heights for the Championship Program with Performance Program and Junior Handler heights in parentheses:

<u>Dog Height</u>	<u>Jump Height</u>	<u>Long Jump</u>	<u>Table*</u>
Over 21"	26" (22")	60" (48")	24" (16")
21" or less	22" (16")	48" (36")	24" (16")
16" or less	16" (12")	36" (20")	16" (12")
12" or less	12" (8")	20" (6")**	12" (12")

NOTE: For dogs entered in Championship classes at 22" and 26" jump heights, the apex of the A-frame is approximately 5'10" (at a 99 degree angle). For dogs entered in Championship classes at 12" and 16" jump heights, and for all dogs entered in Performance program classes, the apex is approximately 5'6" (at a 104 degree angle). JHP classes vary from the above depending on level of competition. Because of minor variations in construction standards and terrain, the angle measurement at the apex of the A-frame shall overrule the height measurement when setting the A-frame in accordance with these regulations.

* See Junior Handler Program class descriptions for table heights used at each level.

** Re-designed long jump in use; P8" dogs use 2nd board only, 6" span at 7.5" height.

2010 Grand Prix of Dog Agility® World Championships & Performance Grand PrixSM - Local Qualifiers (abbreviated version)

These tournaments are open to all competitors regardless of titles earned or skill level. Both are a single-round tournament featuring the sport in its basic form. The course includes obstacles as set forth in Chapter 3 of USDAA Rules and Regulations for standard agility, except that no table obstacle shall be used. Standard scoring shall be applied.

Competitors must have a ZERO fault round to earn a qualifying score for which qualifying ribbons are presented. One qualifying score is required for entry in Round 1 of a Regional Championships. Additionally, the first place competitor in each height class who has earned a qualifying score shall be eligible to enter the final round of a Type 1 Regional Championship without regard to their score in the first round. Such eligibility shall be documented through a "bye" voucher. A competitor may earn more than one voucher, and the voucher is non-transferable, can be used only once and must be submitted with the competitor's entry form for a Type 1 Regional Championship. See complete rules and regulations for Regional Championships, which are hereby incorporated by reference.

SPECIAL NOTES: When a local qualifier is held in conjunction with an agility test where all levels of titling are NOT being offered, 'bye' vouchers will not be awarded. (e.g. Starters/Advanced only, Advanced/Masters only, Masters only – **Tournament Only shows do not fall into this category**) Competitors with a qualifying score placing first in a jump height shall be named Regional Champion and earn a bye into the World Championship semifinals. Additionally, competitors at a Regional Championship with a qualifying score in Round 2 in the top 50% in each height class shall earn a bye into the semifinals at the Cynosport World Games. If at a regional championship a bye is earned by a competitor/dog team who has already earned a bye in that jump height, the bye is forfeited.

The rules may be found on the USDAA web site—General Information—Forms and Documents Library, or may be requested in writing by US mail from the USDAA office. A competitor must have two qualifications from local qualifiers, one of which may be from the first round of a Regional Championship, in order to qualify for entry to the world championship quarterfinals; however, where a competitor may choose to compete in both Grand Prix and Performance Grand Prix qualifiers during the current tournament season, the competitor is only eligible to compete in the championships of the tournament in which they have earned the most qualifications. Further, 2010 tournament rules stipulate that a competitor must compete all in Championship or all in Performance tournaments at Regional and National/World Championship events.
